# ABACUS MINING & EXPLORATION CORPORATION

## Notes to Financial Statements

June 30, 2006

(Unaudited – Prepared by Management)

---

### 1. NATURE OF OPERATIONS

Abacus Mining & Exploration Corporation (the "Company"), incorporated in British Columbia, is an exploration stage company engaged principally in the acquisition, exploration and development of mineral properties. The recovery of the Company's investment in mineral properties is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain financing to complete development and the future proceeds from the disposition of those reserves.

These consolidated financial statements have been prepared on a going-concern basis, which contemplates that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. As at June 30, 2006, the Company has working capital of \$9,697,915 (2004 - \$944,103) and an accumulated deficit of \$22,915,467 (2004 - \$21,762,451). The Company's ability to continue as a going-concern is dependent on the ability of the Company to raise equity financing and the attainment of profitable operations.

These consolidated financial statements have been prepared on a going-concern basis, which assumes the realization of assets and liquidation of liabilities in the normal course of business.

These consolidated financial statements do not give effect to adjustments that would be necessary to the carrying values and classifications of assets and liabilities should the Company be unable to continue as a going-concern.

### 2. SIGNIFICANT ACCOUNTING POLICIES

These consolidated financial statements have been prepared in accordance with accounting policies generally accepted in Canada and reflect the following:

#### (a) Cash and Cash Equivalents

Cash and cash equivalents comprise cash and temporary investments maturing within ninety days from the original date of acquisitions.

#### (b) Marketable Securities

Marketable securities are carried at the lower of cost or quoted market value. When market value is below cost, any unrealized loss is charged to operations.

#### (c) Mineral Interests

The Company capitalizes all costs related to investments in mineral property interests on a property-by-property basis. Such costs include mineral property acquisition costs and exploration and development expenditures, net of any recoveries. Costs are deferred until such time as the extent of mineralization has been determined and mineral property interests are either developed or the Company's mineral rights are allowed to lapse. All deferred mineral property expenditures are reviewed, on a property-by-property basis, to consider whether there are any conditions that may indicate impairment. When the carrying value of a property exceeds its net recoverable amount that may be estimated by quantifiable evidence of an economic geological resource or reserve, joint venture expenditure commitments or the Company's assessment of its ability to sell the property for an amount exceeding the deferred costs, provision is made for the impairment in value.

# ABACUS MINING & EXPLORATION CORPORATION

## Notes to Financial Statements

June 30, 2006

(Unaudited – Prepared by Management)

---

### 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### (c) Mineral Interests (Continued)

The amounts shown for acquisition costs and deferred exploration expenditures represent costs incurred to date and do not necessarily reflect present or future values. These costs will be depleted over the useful lives of the properties upon commencement of commercial production or written off if the properties are abandoned or the claims allowed to lapse.

From time to time the Company may acquire or dispose of a mineral property interest pursuant to the terms of an option agreement. As the options are exercisable entirely at the discretion of the optionee, the amounts payable or receivable are recorded as property costs or recoveries when the payments are made or received.

#### (d) Equipment

Equipment is recorded at cost and amortized using the declining-balance method at an annual rate of 20% for office and field equipment and 30% for computer equipment.

#### (e) Use of Estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those reported.

#### (f) Capital Stock

Capital stock issued for non-monetary consideration is recorded at fair market value on the dates of issuance pursuant to the agreement to issue shares as determined by the Board of Directors of the Company based on the trading price of the shares on the TSX Venture Exchange (the "Exchange"). The proceeds from shares issued under flow-through share financing agreements are credited to capital stock and the tax benefits of the exploration expenditures incurred under these agreements are transferred to the purchaser of the shares. Costs incurred for the issue of shares are deducted from capital stock.

#### (g) Loss Per Share

Loss per share amounts have been calculated and presented in accordance with the treasury stock method. Diluted loss per share amounts have not been presented as the effect of outstanding options and warrants are anti-dilutive.

#### (h) Foreign Currency Translation

The accounts of the Company's foreign operations have been translated into Canadian dollars. Monetary items are translated at the exchange rate in effect at the balance sheet date; non-monetary items are translated at historical exchange rates; revenues and expenses and exploration and development items, at the average rate of exchange for the period. Gains and losses arising from this translation of foreign currency are included in net loss.

# ABACUS MINING & EXPLORATION CORPORATION

## Notes to Financial Statements

June 30, 2006

(Unaudited – Prepared by Management)

---

### 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### (i) Financial Instruments

The carrying values of cash and cash equivalents, accounts receivable, loan receivable, advances to contractor, accounts payable, accrued liabilities and loans payable approximate their fair values due to the relatively short periods to maturity of these instruments.

The estimated fair value of marketable securities and \$300,000 loan receivable (note 3(b)) at June 30, 2006 was \$650,000 (2005 - \$1,250).

The Company is exposed to credit risk with respect to its cash and other amounts receivable. Cash and cash equivalents and flow-through exploration funds have been placed with a major Canadian financial institution. Other amounts receivable are primarily amounts owing from government agencies and related parties.

#### (j) Stock-Based Compensation

The Company follows the recommendations of the Canadian Institute of Chartered Accountants (“CICA”) Section 3870, “*Stock-Based Compensation and Other Stock-Based Payments*” for accounting for stock-based compensation expense whereby all stock-based payments to directors, employees and non-employees, including awards that are direct awards of stock, call for settlement in cash or other assets, or stock appreciation rights that call for settlement by the issuance of equity instruments, granted on or after January 1, 2004, are accounted for using the fair value based method, and are recorded as an expense in the period the stock-based payments are vested or the awards or rights are granted, and a corresponding increase in option compensation. When the stock options are exercised the corresponding fair value is transferred to capital stock. When the stock options are forfeited, cancelled or expired the corresponding fair value is transferred to contributed surplus.

#### (k) Asset Retirement Obligations

The Company has adopted the CICA Section 3110, “*Asset Retirement Obligations*”. This statement establishes standards for accounting for the recognition and measurement of liabilities for obligations associated with the retirement of property, plant and equipment when those obligations result from the acquisition, construction, development or normal operations of the assets. As at March 31, 2006, the Company did not have any asset retirement obligations.

#### (l) Impairment of Long-Lived Assets

The Company has adopted CICA Section 3063, “*Impairment of Long-Lived Assets*”. This statement establishes standards for the recognition, measurement and disclosure of the impairment of non-monetary long-lived assets, including property, plant and equipment, intangible assets with finite useful lives, deferred pre-operating costs and long-term prepaid assets. The adoption of this standard did not have a material impact on its financial position or results of operations.

#### (m) Income Taxes

The Company follows the asset and liability method of accounting for income taxes. Under this method of tax allocation, future income tax assets and liabilities are determined based on differences between the financial statement carrying values and their respective income tax basis (temporary differences). Future income tax assets and liabilities are measured using the tax rates expected to be in effect when the temporary differences are likely to reverse. The effect on future income tax assets and liabilities of a change in tax rates is included in operations in the period in which the change is enacted or substantially assured.

# ABACUS MINING & EXPLORATION CORPORATION

## Notes to Financial Statements

June 30, 2006

(Unaudited – Prepared by Management)

The amount of future income tax assets recognized is limited to the amount of the benefit that is more likely than not to be realized.

## 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### (n) Flow-Through Common Shares

The Company follows the CICA accounting pronouncement EIC-146, relating to flow-through shares. Under the terms of Canadian flow-through share legislation, the tax attributes of qualifying expenditures are renounced to the subscribers. The tax impact to the Company of the renouncement is recorded on the date that the renunciation is filed with taxation authorities, through a decrease in capital stock and the recognition of a future tax liability.

## 3. MINERAL INTERESTS

At June 30, 2006, expenditures incurred on mineral properties are as follows:

	Afton Mine Property				Total
	Afton	Rainbow	Iron Mask	DM/Audra	
Balance, December 31, 2005	\$ 9,102,946	\$2,525,148	\$1,839,401	\$ 0	\$13,467,495

# ABACUS MINING & EXPLORATION CORPORATION

## Notes to Financial Statements

June 30, 2006

(Unaudited – Prepared by Management)

---

### 3. MINERAL INTERESTS (Continued)

The Company has acquired or has an option to acquire mineral interests as follows:

#### (a) Iron Mask, Rainbow and Afton Mine Property, Kamloops Mining Division, BC

During the year ended December 31, 2004, the Company exercised its options and acquired a 100% interest in the Iron Mask and Rainbow properties (a total of 52 mineral claims) through issuing 500,000 common shares of the Company and incurring \$2,000,000 in mineral exploration expenditures on the property.

The properties are subject to 1.5% net smelter royalties of which the Company may purchase one-third of each for \$1,000,000.

The optionor had also reserved a right to back-in and acquire up to a 65% interest in any specific mineral located.

Certain of the mineral claims are subject to various net profit interests or net smelter royalties held by underlying vendors of those claims.

On November 25, 2005, the Company signed an Asset Purchase Agreement with the optionor to purchase land, buildings, equipment, tailings pond and the back-in rights pursuant to the Rainbow and Iron Mask property agreements ("Afton"). Total aggregate consideration for the transfer of the assets is \$28,500,000 to be paid as follows:

- (i) 8,500,000 shares at a deemed value of \$1 per share on the execution date (issued);
- (ii) 5,000,000 shares at a deemed value of \$1 per share and \$5,000,000 cash on or before November 26, 2006; and
- (iii) 5,000,000 shares at a deemed value of \$1 per share and \$5,000,000 cash on or before November 26, 2007.

Upon completion of all share issuances and cash payments, the optionor will transfer title (the "Transfer Date") of the assets to the Company, subject to any additional consideration. On the Transfer Date, if the ten-day weighted average closing price of the shares issued to the optionor is less than \$18,500,000, the Company will pay the optionor additional consideration equal to 81.1% of the difference between \$18,500,000 and the weighted average closing price of the Company's shares. Any reclamation liabilities that may be attributable to the assets acquired will be assessed and recorded upon closing.

On March 3, 2006, the Company paid to the optionor \$3,000,000 of the \$5,000,000 first anniversary payment in accordance with the Afton Asset Purchase Agreement dated November 25, 2005.

#### (b) Niblack Project, Alaska, USA

The Company held a 100% interest in 47 mineral claims 16 patented mineral claims subject to the issue of 500,000 common shares upon making a decision to place the property into production. The optionor of a 70.49% interest in the property had retained a variable 1% to 3% net smelter returns royalty based on the profitability of the property. Certain net profit interests were held by other parties with respect to a 29.51% interest in the property. An additional 100% interest in two patented mineral claims had been acquired subject to a final US \$10,000 payment. During 2002, the property was written-down to a nominal value of \$1.

# ABACUS MINING & EXPLORATION CORPORATION

## Notes to Financial Statements

June 30, 2006

(Unaudited – Prepared by Management)

---

On March 15, 2005, the Company received shareholder approval to transfer Abacus Alaska Inc., the holder of the Niblack property, into Niblack Mining Corp. ("Niblack"), a newly incorporated company. On April 15, 2005, shareholders of the Company received one new share of Niblack and four new shares of the Company for

### 3. MINERAL INTERESTS (Continued)

#### (c) Niblack Project, Alaska, USA (Continued)

every four Company shares held. Initial capital for Niblack was provided by a \$300,000 plus interest loan by the Company, which is convertible into Niblack shares at a price of \$0.35 per share. The Company was also issued 1,000,000 (escrowed) Niblack shares as bonus for the foregoing loan.

#### (d) Title to Mineral Property Interests

Although the Company has taken steps to verify the title to mineral properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements or transfers and title may be affected by undetected defects.

#### (e) Realization of Assets

The investment in and expenditures of resource properties comprise a significant portion of the Company's assets. Realization of the Company's investment in these assets is dependent upon the establishment of legal ownership, the obtaining of permits, the satisfaction of governmental requirements and possible aboriginal claims, the attainment of successful production from the properties or from the proceeds of their disposal.

Resource exploration and development is highly speculative and involves inherent risks. While the rewards if an ore body is discovered can be substantial, few properties that are explored are ultimately developed into producing mines. There can be no assurance that current exploration programs will result in the discovery of economically viable quantities of ore.

#### (f) Environmental

Environmental legislation is becoming increasingly stringent and costs and expenses of regulatory compliance are increasing. The impact of new and future environmental legislation on the Company's operations may cause additional expenses and restrictions.

If the restrictions adversely affect the scope of exploration and development on the mineral properties, the potential for production on the property may be diminished or negated.

The Company is subject to the laws and regulations relating to environmental matters in all jurisdictions in which it operates, including provisions relating to property reclamation, discharge of hazardous material and other matters. The Company may also be held liable should environmental problems be discovered that were caused by former owners and operators of its properties and properties in which it has previously had an interest. The Company conducts its mineral exploration activities in compliance with applicable environmental protection legislation. The Company is not aware of any existing environmental problems related to any of its current or former properties that may result in material liability to the Company.

## Notes to Financial Statements

June 30, 2006

(Unaudited – Prepared by Management)

### 5. CAPITAL STOCK

Authorized  
Unlimited number of common shares without par value

	No. of Shares	Amount
Issued		
Balance, December 31, 2005	49,684,480	\$ 35,837,507
Issued for cash, private placements (net of issue costs)	23,571,430	13,531,019
Issued for cash, exercise of options	900,000	127,320
	24,471,430	13,658,339
Balance, June 30, 2006	74,155,910	49,495,846

#### (a) Private Placements

- (i) On February 17, 2006, the Company closed a private placement financing for gross proceeds of \$14,500,000 and issued 20,000,000 units at a price of \$0.60 per unit and 3,571,430 flow-through units at a price of \$0.70 per unit. Each unit consists of one common share and one-half of one common share purchase warrant. Each flow-through unit consists of one flow-through common share and one-half of one common share purchase warrant. Each whole warrant will entitle the holder to purchase one additional common share for a period of two years from the closing date at a price of \$0.85.
- (ii) On December 29, 2005, the Company completed a non-brokered private place of 2,000,000 units at a price of \$0.45 per unit for proceeds of \$900,000. Each unit consists of one common flow-through share and one-half share purchase warrant. Each whole warrant is exercisable into one common share at a price of \$0.55 on or before January 13, 2007.

#### (b) Renounced Exploration Expenditures

In February 2005, the Company renounced \$84,000 of exploration expenditures under its flow-through share program, resulting in a future income tax liability of \$28,660, which was deducted from capital stock. The Company subsequently reduced the future income tax liability by recognizing previously unrecorded future income tax assets equal to the amount of the future tax liability. This decrease in the valuation allowance has resulted in a future income tax recovery of \$28,660 disclosed on the statement of operations under future income taxes (note 8).

#### (c) Bonus Shares

During the year ended December 31, 2005, the Company arranged three private loans for a total of \$450,000. The Company agreed to pay bonus shares of 450,000 at a deemed value of \$90,000 as consideration for the loan. The loans have a term of one year bearing interest at a rate of 12% per annum, compounded monthly, resulting in an interest expense of \$108,790 including the deemed value of \$90,000 for the bonus shares issued. On January 25, 2006 the Company repaid these three private loans in full.

### 5. CAPITAL STOCK (Continued)

#### (d) Share Purchase Warrants

The Company has, as at June 30, 2006, share purchase warrants outstanding entitling the holders to acquire common shares as follows:

Outstanding as at December 31, 2005	Exercise Price	Expiry Date	Issued	Exercised	Expired	Outstanding as at June 30, 2006
1,000,000	\$0.55	January 13, 2007	0	0	0	1,000,000
	\$0.75	February 17, 2008	2,357,143			2,357,143
	\$0.85	February 17, 2008	11,785,715			11,785,715
1,000,000			14,142,858			15,142,858

#### (e) Stock Options

Options to purchase common shares have been granted to directors, employees and consultants at exercise prices determined by reference to the market value on the date of the grant. As at June 30, 2006, the Company had stock options outstanding to directors and employees for the purchase of up to 8,112,500 common shares exercisable as follows:

Options Outstanding		
Number of Shares	Exercise Price	Expiry Date
15,000	\$0.11	June 1, 2006
102,500	\$0.16	April 16, 2007
720,000	\$0.08	April 4, 2008
475,000	\$0.15	September 4, 2008
300,000	\$0.29	October 9, 2008
1,500,000	\$0.16	September 17, 2009
1,500,000	\$0.32	October 23, 2009
200,000	\$0.30	December 23, 2009
800,000	\$0.28	March 4, 2010
500,000	\$0.34	May 20, 2010
2,000,000	\$0.90	April 7, 2011
8,112,500		

A summary of the status of the Company's stock options as at June 30, 2006 and changes during the period then ended is as follows:

2005		
	Shares	Weighted Average Exercise Price
Outstanding at beginning of year	7,012,500	\$0.26
Exercised	(900,000)	\$0.14
Granted	2,000,000	\$0.90
Outstanding at end of period	8,112,500	\$0.46

## Notes to Financial Statements

June 30, 2006

(Unaudited – Prepared by Management)

### 5. CAPITAL STOCK (Continued)

#### (f) Stock-Based Compensation

The following summarizes information about the fair value of option compensation:

	2006	2005
Balance, beginning of year	904,352	\$ 435,118
Stock-based compensation	435,703	469,234
Balance, end of year	1,340,055	\$ 904,352

The fair value of stock options used to calculate compensation expense is estimated using the Black-Scholes option pricing model with the following assumptions:

	2005	2004
Risk-free interest rate	3.12% - 3.29%	3.17% - 3.36%
Expected dividend yield	0	0
Expected stock price volatility	97% - 108%	108% - 115%
Expected option life in years	5	3

Option pricing models require the input of highly subjective assumptions including the expected price volatility. Changes in the subjective input assumptions can materially affect the fair value estimate, and therefore, the existing models do not necessarily provide a reliable single measure of the fair value of the Company's stock options.

### 6. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS

- (a) Interest paid during the period amounted to \$3,878 (2005 - nil).
- (b) Interest received during the period amounted to \$115,980 (2005 – \$9,231).

### 7. RELATED PARTY TRANSACTIONS

- (a) The Company conducts the majority of its exploration activities through an exploration services contractor in which a director is a principal. The Company paid that contractor \$1,611,935,348 (2005 - \$207,996) for exploration costs and \$167,625 (2005 - \$76,379) to reimburse office and administrative costs. As at June 30, 2006, there was \$48,671 due to that company.
- (b) A management fee of \$9,000 (2005 - \$9,000) and rent of \$15,400 (2005 - \$12,436) was paid or was owed to a company in which a director is a principal. As at June 30, 2006, there was \$4,066 due to that company.
- (c) The Company shares office and administrative costs with a company with two directors in common. As at June 30, 2006, \$2,146 was due from this company.
- (d) Legal fees in the amount of \$51,242 (2004 - \$6,063) were paid to a firm in which an officer of the Company is a partner.

## Notes to Financial Statements

June 30, 2006

(Unaudited – Prepared by Management)

(e) A director of the Company was paid \$30,000 (2005 - \$30,000) for consulting services.

### 8. INCOME TAXES

The Company has capital losses of approximately \$11,172,000 available to be carried forward to offset future taxable capital gains.

The Company has accumulated non-capital losses for Canadian tax purposes of approximately \$2,686,000 that expire in various years to 2015 as follows:

2006	\$	404,000
2007		214,000
2008		206,000
2009		219,000
2010		331,000
2014		685,000
2015		627,000
	\$	2,686,000

Future income tax assets and liabilities are recognized for temporary differences between the carrying amounts of the balance sheet items and their corresponding tax values as well as for the benefit of losses available to be carried forward to future years for tax purposes that are likely to be realized.

The reconciliation of income tax provision computed at statutory rates to the reported income tax provision is as follows:

	2005	2004
	34.12%	35.62%
Income tax benefit computed at Canadian statutory rates	\$ 388,472	\$ 394,798
Temporary differences not recognized in year	(2,935)	(2,424)
Stock-based compensation	(160,103)	(112,601)
Permanent differences not recognized	(4,881)	(26,631)
Unrecognized tax losses	(191,893)	(253,142)
	\$ 28,660	\$ 0

Significant components of the Company's future tax assets and liabilities, after applying enacted corporate income tax rates, are as follows:

	2005	2004
Future income tax assets		
Temporary differences in assets	\$ 1,763,652	\$ 1,769,949
Non-capital losses carried forward	917,118	941,132
Capital losses carried forward	3,812,150	3,296
	6,492,920	2,714,377
Valuation allowance for future income tax assets	(6,492,920)	(2,714,377)
Future income tax assets, net	\$ 0	\$ 0
